

# About our infection control measures

In order to prevent infection, we ask all visitors to do the following.

- Automatic temperature measurement upon entry
- Wearing a mask
- Hand disinfection
- When new coronavirus infectious disease is suspected "Special outpatient" consultation

◎ If you fall under any of the following items, please ask the reception staff and visit a special outpatient consultation.

- Within 10 days, **Diagnosed with COVID-19**
- Within 10 days, new or worsening of the following symptoms
  - **Fever of**
  - **Cold symptoms (runny nose, cough, sore throat, etc.)**
- Within 7 days, have been in **contact** with a patient with COVID-19

" Contact " means:

- ① Live together
- ② Drink and eat together
- ③ A cluster is occurring around yourself (workplace, school, residential facility, etc.) etc.

In addition to the above, if you are unsure about the decision, please speak to a staff member.
